Food Store

In 2017 Ku-ring-gai decided to dispense with the practice of maintaining a comprehensive food store. Instead, the range WAS reduced to the staple items listed below.

The background to KAL maintaining a range of non-perishable foods had its genesis in the time when there was no shop within Perisher Valley and thus the food store avoided guests lugging in food for the week. This situation has long passed.

It was felt that the usage of the food store was unbalanced, in that some guests utilise the store whilst others did not. Given that there is a very good local supermarket located in the Skitube building, the need for KAL to maintain a wide range of food is unnecessary.

A list of the range of food held for the use of guests is provided below.

NOTE – Residents MUST remove ALL their food from the Lodge at the end of their stay.
